DAMEZZA

OUR TRADITION IS TO INNOVATE

THE GROUP DAMEZZA

The Damezza Group has been present at the tables of its consumers for over 40 years. We operate in the food sector, in the production and marketing of quality products such as wheat flour, pasta, and cookies.

We take pride in expanding wheat cultivation in the Northeast, having been pioneers in this cultivation in Ceará, and also in embracing innovation as part of our essence. This innovation directly reflects in our products, adding quality, such as our Spaghetti Sêmola Damezza with eggs, which is the only one on the market to use free-range eggs from hens, and our Fine Salted Damezza Cookies, with a unique shape and texture, made with natural ingredients and without frying.

We have various brands to cater to all audiences, without compromising on the inherent quality of the Group. Spaghetti Danado de Bom, made from a blend of grains, tasty and nutritious, is perfect for those looking for the best price without sacrificing quality.

In constant expansion, the Group further diversifies its operations with the launch of new products under the brands Damezza, Puríssima, Nutrilar, Coração Nordestino, and Danado de Bom, which not only serve various types of audiences but also continue to expand their presence throughout Brazil.

**Let's get to know the Damezza
Group brands?**
